Powered by our trademark innovative, eco-friendly lighting technology, our illuminated Light Boxes offer an ideal way to brighten up your home or promote your business. These ultra slim Light Boxes are among the most elegant display frames on the market and combined with their low-profile design; help deliver a contemporary and modern look guaranteed to raise eyebrows.

These illuminated poster frames are available in a variety of styles; Clear Frame, Glossy Black Frame and Magnetic Frame. Graphics can be easily changed from each of these light boxes without removing the panels from the wall making for a stress-free and easy to use operation.

Our LED Light Boxes contain high quality LED strips which are smaller and more efficient than regular light bulbs. This allows light to distribute evenly and helps reduce the overall energy costs. Our LED Light Boxes have a rated life span of upto 70,000 hours approx. which basically means no bulb replacements for upto 6 years at a stretch!

** Please be aware that these figures are variable and depend on how the light boxes are used on a daily basis.*

Our CSA-approved illuminated frames are available in a number of sizes including counter top sizes. We also stock double-sided frames which can be used in a glass window setting for a dramatic dual view effect.

FOR MORE INFORMATION, PLEASE VISIT OUR WEBSITE AT www.focosdisplays.com OR CALL 1.604.278.0354

Long-Lasting

Our light boxes use power-saving light sources and will last up to 70,000 hours

Ease of Use

Images can be changed with ease with the help of our accessible open/close system

Zero Maintenance

Once installed, our products do not require any maintenance or replacements of parts

Safe to Use

Our light boxes do not generate heat and are therefore perfect for a retail or home environment
